

John F. Barnes, PT, considered to be a therapeutic icon and teacher of the highest caliber, will share with you his over 50 years of experience, expertise and wisdom from patients all over the world.

LEARN . . .

THE JOHN F. BARNES'

MYOFASCIAL RELEASE

APPROACH®

MYOFASCIAL RELEASE

~ ENHANCE YOUR LIFE! ~

The John. F. Barnes' Myofascial Release Approach® is considered to be the ultimate mind/body therapy that is safe, gentle and consistently effective in producing results that last. John F. Barnes, PT, is an international lecturer, author and authority on Myofascial Release. He is considered to be a visionary and teacher of the highest caliber.

WHAT IS FASCIA?

Fascia is a tough connective tissue which spreads throughout the body in a three-dimensional web from head to foot without interruption. Trauma, posture or inflammation can create a binding down of fascia resulting in excessive pressure on nerves, muscles, blood vessels, osseous structures and/or organs. Since many of the standard tests such as x-rays, myelograms, CAT scans, electromyography, etc, do not show the fascial restrictions, it is thought that an extremely high percentage of people suffering with pain and/or lack of motion may be having fascial problems, but most go undiagnosed.

Fascia Photo by Permission of Dr J.C. Guimberteau

The viscoelastic quality of the fascial system causes it to resist a suddenly applied force. This explains why the "old form" of myofascial release, which was an attempt to force a system that cannot be forced, produced pain and limited results.

WHAT IS THE JOHN F. BARNES' MYOFASCIAL RELEASE APPROACH®?

The John F. Barnes' Myofascial Release Approach® consists of the gentle application of sustained pressure into the fascial restrictions. This essential "time element" has to do with the viscous flow and the piezoelectric phenomenon: a low load (gentle pressure) applied slowly will allow a viscoelastic medium (fascia) to elongate.

Our seminars are designed to be "hands-on" experiences. The seminars listed in this brochure all build upon one another providing a logical, step-by-step, comprehensive Approach for the treatment of pain, headaches and dysfunction. The Barnes' Myofascial Release Approach® is easily learned so that you can utilize the techniques taught in class immediately upon returning to your practice.

Discover how this truly unique Approach can help you to develop the skills and confidence to provide consistent results for your patients / clients while adding fulfillment and revitalizing your professional and personal life!

"If you are drawn to take the seminars, just listen to your intuition. You will not regret it! This work is wonderful for your patients/clients, as well as yourself. You will be able to help so many people, people who are desperate because nothing is helping. Each patient is special and unique. Learning the John F. Barnes' Approach to Myofascial Release will give you the techniques, ability and confidence that you need to treat each person as a distinct human being. Myofascial Release is truly a therapeutic art."

MYOFASCIAL RELEASE

JOHN F. BARNES, PT

*International lecturer, author and authority on
Myofascial Release*

John F. Barnes, PT, is a therapeutic 'icon' considered to be a teacher of the highest caliber. He has been teaching Myofascial Release seminars for over 50 years and has trained over 100,000 therapists.

One of the most important developments in electronics and healthcare !

I would like to share with you the importance of the cytoskeleton and the fascial microtubules that I have learned from treating patients from all over the world and teaching Myofascial Release Seminars over the last 50 years. The cytoskeleton within every cell is comprised of the fascial microtubules through which consciousness flows at an incredible speed.

The single-cell Paramecium is evidence of consciousness beyond the nervous system. The Paramecium has no central nervous system, no brain, no neurons but it swims around, finds food, finds a mate and avoids danger. The fascial microtubules are the paramecium's cytoskeleton, which process enormous amounts of information/consciousness flowing through us at incredible speed. Recent research has demonstrated that modern brain science with emphasis on the neuron is misguided.

Fascial microtubules have proven to be the most versatile biological structures that are found in every cell in plants, animals and humans. Microtubules act as the crucial cytoskeleton, supporting the structure of living cells and moving the chemical components, nutrition, oxygen and fluid to nourish the trillions of cells in our mind/body complex.

Nobel Prize winner, Sir Charles Scott Sherrington, renowned English physician, neurophysiologist, histologist, bacteriologist, and pathologist, spent his life studying, teaching, and writing about the nervous system. Dr. Sherrington, a long time ago, stated that he considered the cell's cytoskeleton functioned as its nervous system.

Anirban Bandyopadhyay is a physicist studying the work of Dr. Penrose and Dr. Hammeroff on the microtubules. Microtubules conduct information and energy much faster than the neurons. A bundle of microtubules resonates like a guitar string firing a thousand times faster than the normal activity for neurons which is contrary to all previous scientific understanding. Neuroscientists need to go deeper into the microtubules. Bandyopadhyay has stated that modern brain science's emphasis on the neuron is misguided !

Anirban Bandyopadhyay's research has also interestingly stated that the fascial microtubules have been considered by traditional science as basically insulators, incapable of conducting energy. Bandyopadhyay found something very different; applying energy and sustained pressure to the fascia's microtubules increased the flow by a factor of one billion !

Increased by one billion No wonder myofascial release is so incredibly effective ! Instead of the mistaken idea that microtubules were insulators, they have been now shown to be acting like a semi-conductor, capable of carrying enormous amounts of information and energy at an incredible speed. Anirban Bandyopadhyay has stated that he considers this one of the most important developments in electronics !

It is important for us to understand that Myofascial Release enhances the flow of liquid light through the crystalline fascial web to decrease pain, increase motion, and enhance physiological health.

One of the world's greatest geniuses, Einstein, has said that everything is energy, different frequencies and vibration of energy. In all of his profound insights, he stated did not come from his intellectual mind, but from his intuition. It would come to him in the form of pictures as a totality, and that he used his intellectual side to break down into words and concepts so he can communicate this to others.

Fascial restrictions can exert crushing pressure on pain sensitive structures producing pain, headaches, fibromyalgia and restriction of motion.

Similar to Einstein, anesthesiologist Dr. Stuart Hammeroff's intuition showed him that there were tiny structures in our cells called fascial microtubules, which could explain consciousness. He was joined by Sir Roger Penrose, one of the most esteemed figures in mathematical physics. Through years of work, they developed a theory called "Orchestrated Objective Reduction". Research suggests that structures called microtubules could transport materials, chemicals, nutrition, oxygen and fluid inside cells and underlies our conscious thinking. They believe quantum physics might be vital to our cognition and even memory. It has been estimated that the neurological system conducts signals and information at a very fast rate, approximately 150 miles per hour. However, we must look at the fascial system as our primary communication system, since it conducts signals, information, energy at a rate of 750 miles per hour !

My intuition (Channel 3) guided me both through visual images and instinctive 'felt sense' revealing to me how the fascial system is not an insulator, but a semi-conductor and how every fascial fiber down to the tiniest of levels is actually a microtubule with a hollow core. Within the hollow core is fluid, and within the fluid flows photons which are the basic communication of our body at the cellular level.

Our education in traditional therapy and science, while logical, is riddled with enormous errors and flaws. To quote the brilliant writer and father of American Literature, Mark Twain, "I was educated once; it took me years to get over it !"

Isn't it time to let go of the antiquated, obsolete paradigm of traditional therapy and science? To be blunt
When the horse is dead, dismount !!!

Instead, embrace Myofascial Release fully allowing a return of vitality, passion and joy to your life and the life of others !

JOIN US IN THE IMPORTANT MYOFASCIAL RELEASE EVOLUTION IN HEALTHCARE!

Sincerely,

MYOFASCIAL RELEASE I

This exciting “hands-on” introductory course has trained over 100,000 therapists. Graduates of this course are immediately able to produce positive, structural changes in their patients with acute and chronic pain and dysfunction. These whole-body techniques will be an important added dimension to your existing treatment regimen, greatly enhancing your therapeutic effectiveness.

20 Hour Seminar

“I attended MFR 1 last year in Sedona. My practice is probably 90% MFR and people love it! I believe that the demand for Myofascial Release will do nothing but increase as people learn more about fascia and experience the healing that comes with this work.”

MYOFASCIAL RELEASE TECHNIQUES

- ♦ Theory
- ♦ Anatomy of Fascia & Related Structures
- ♦ Whole Body Inter-Relationships
- ♦ Development of Palpation Skills
- ♦ Evaluation Procedures
- ♦ Lower Extremity Problems
- ♦ Sacral Float
- ♦ Lumbar-Pelvic Problems
- ♦ Anterior & Posterior Thoracic Areas
- ♦ Transverse Fascial Planes (Thoracic Inlet, Respiratory Diaphragm & Pelvic Floor)
- ♦ Upper Extremity Problems
- ♦ Cervical Spine, Atlas and Axis, Occipital Condyle Release, Dural Tube Mobility

CRANIAL TECHNIQUES

- ♦ Theory
- ♦ Headache Release
- ♦ Evaluation Techniques
- ♦ Temporomandibular Problems
- ♦ Cranial/Sacral Techniques
- ♦ Cranial Trauma
- ♦ Sinus Problems
- ♦ Birth Injuries

ENJOY A NEW, EXCITING AND LUCRATIVE CAREER!

I have had the opportunity of training over 100,000 therapists and my goal is to help you improve your logical and intuitive abilities and enhance confidence. Trauma and inflammatory responses create myofascial restrictions that can produce tensile pressures of approximately 2,000 pounds per square inch on pain sensitive structures that do not show up in any of the standards tests (x-rays, myelograms, CAT scans, electromyography, etc.)

This enormous pressure acts like a “straightjacket” on muscles, nerves, blood vessels and osseous structures producing the symptoms of pain, headaches and restriction of motion.

Symptoms are the tip of the iceberg of a much deeper, important problem—myofascial restrictions! Science has now discovered what I have been teaching for over 60 years; i.e., pain, dysfunction and disease are caused by a prolonged inflammatory response. Trauma and the resultant inflammatory response create myofascial restrictions that ultimately create the symptoms.

Myofascial Release allows the chronic inflammatory response to resolve and eradicates the enormous pressure of myofascial restrictions exerted on pain-sensitive structures to alleviate symptoms and to allow the body's natural healing capacity to function properly.

"I was introduced to Myofascial Release at a time in my life when I was considering leaving the profession of massage therapy altogether. My body was in pain from performing traditional massage techniques, such as deep tissue, and I was not helping people as much as I had been led to believe. I was burnt out from trying to force change."

PATIENT STATEMENT

ONE YEAR OF PHYSICAL THERAPY & MASSAGE THERAPY

MYOFASCIAL RELEASE RESULTS

"After finding a cancerous tumor in one of my legs, I was a runner left without the use of my left leg. It was both physically and emotionally devastating to lose the use of a limb. I was becoming increasingly frustrated with traditional physical therapy as a means for fixing a poorly functioning leg after surgery and months of not using it. The therapy I was enduring was painful and producing little to no results. I thought there must be something else out there that might help more than the painful pushing and pulling that was occurring nearly daily at physical therapy.

A family member referred me to a Myofascial Release therapist, Rowena Cua. I was immediately impressed by Rowena's kind nature, warm spirit, and the tremendous amount of knowledge she was willing to share with me about fascia and the John F. Barnes Myofascial Release Approach. Rowena and I have worked together weekly to release scar tissue and trauma and restore the function to my leg. Her care and treatment have been vital to my recovery."

Her doctors told her that she probably wouldn't be able to straighten her leg again because they removed so much of her hamstrings from the sarcoma. After Myofascial Release she was able to walk without a limp and straighten her leg, therefore being able to run again!

Rowena Cua, LMT, BCTMB, Las Vegas, NV

MYOFASCIAL UNWINDING

The Myofascial Unwinding seminar is designed to enhance your skill level and sensitivity providing you with a comprehensive treatment regime. Persistent pain and/or structural dysfunction may be perpetuated by “holding or bracing patterns” in the body. You will learn from the patient’s perspective how unresolved emotional issues or mental concepts that are outdated and are no longer relevant may impede progress. The intermediate “hands-on” Myofascial Unwinding™ seminar will also improve your mental clarity, focus, sensitivity of touch and expand your abilities to achieve consistent results.

20 Hour Seminar—Prerequisite: Myofascial Release I™

“I have been taking courses with John F. Barnes for just shy of 15 years. The changes in my own body and understanding how it works, how my tissues communicate, and how to let go of fear of past traumas and pain have been incredible.”

MYOFASCIAL UNWINDING IS A VERY EFFECTIVE MOVEMENT FACILITATION TECHNIQUE UTILIZED TO:

- ♦ Decrease Pain
- ♦ Increase Range of Motion
- ♦ Eliminate Subconscious “Holding or Bracing Patterns”
- ♦ Increase Your Proprioceptive Awareness
- ♦ Increase Functional Mobility of the Neuro/Myofascial/Osseous Systems

LOCATIONS AND DATES

Cliff Castle Resort
(928) 567-7999

“This work is so very powerful, and different from anything I learned anywhere else. I can only speak for myself, but I wish I had started this journey sooner.”

MYOFASCIAL RELEASE II

Myofascial Release I developed a fascinating framework of concepts and techniques. Myofascial Release II completes this conceptual framework with important, advanced, whole body Myofascial Release techniques and newly refined cranial advancements. The intermediate “hands-on” Myofascial Release II seminar will greatly enhance your vital “feel” via development of the tactile and proprioceptive senses which will allow you to achieve a higher level of expertise. These exciting techniques have been carefully developed and selected for their outstanding, consistent results.

20 Hour Seminar—Prerequisite: Myofascial Release I™

- ♦ Fascial Cranium
- ♦ Cervical
- ♦ Dural System

MYOFASCIAL SUCCESS WITH SEVERE TORTICOLLIS !

A TOTAL OF 18 MYOFASCIAL RELEASE TREATMENTS.

This is a 3-year-old girl who was terrified and in extreme pain and obviously had minimal range of motion. She was diagnosed with torticollis. Her neck was severely compressed, fully rotated, and side bent. She had been to many therapists, had cranial manipulations, and had seen a multitude of physicians. Unfortunately, none provided any improvement.

Her physicians recommended Botox injections and possible surgery.

Fortunately, she found Peter Podbielski, DPT, who is a highly skilled myofascial release therapist, and he was able to help her return to being a happy, healthy little girl.

Myofascial release is the missing link in traditional therapy, and is safe, gentle and highly effective !

MYOFASCIAL MOBILIZATION

This fascinating “hands-on” seminar will introduce you to the highly effective world of Myofascial Release. This seminar will present the theory of Myofascial Release and the hands-on sessions will primarily focus on the upper and lower extremities, cervical, thoracic and lumbar areas.

12 Hour Seminar

*“The techniques are excellent,
they do adhere to the ‘no force’ principles.”*

*“I just attended Myofascial
Mobilization this past weekend!
I had mistakenly thought the class
would be two days of techniques that
were contrary to the principles of
John F. Barnes Myofascial Release.
So, I took all the other seminars and
avoided the mobilization workshop —
I even took equine first, despite
intense uneasiness around horses.
Well, whoops, I was very wrong.
The techniques are excellent,
they do adhere to the
‘no force’ principles.”*

PEDIATRIC MYOFASCIAL RELEASE

This introductory “hands-on” workshop is designed for therapists whose primary focus is on the pediatric population. Myofascial Release will be presented for the evaluation and treatment of head injuries, cerebral palsy, birth trauma, scoliosis, movement dysfunction, neurological dysfunction, trauma, pain and headaches.

12 Hour Seminar

**Myofascial Release
makes for a happy child !**

LOCATIONS AND DATES

ROCHESTER, MN

***“John F. Barnes’ Myofascial Release Approach is the most comprehensive & successful bodywork
I have ever practiced. I am booked 4 to 6 weeks out. So clients are getting better, new clients are coming in.
Myofascial Release literally changed every aspect of my life, my health, and my practice.
I say go for it. I am grateful every day that I took that leap.”***

FASCIAL CRANIUM

The Fascial Cranium Seminar is one of our newest and most popular seminars!

You will explore and learn unique Myofascial Release principles for the fascial cranium and intra-oral structures to increase physiological function, enhance cognition, and decrease headaches, cervical, sinus and TMJ pain.

This will also be a treatment seminar for you. Your head and whole body will receive powerful treatments with individual and group experiences. This class will be an extraordinary learning experience, with deep healing and fun with your Myofascial Release colleagues and friends.

20 Hour Seminar

Prerequisites: Myofascial Release I™, Myofascial Unwinding, Myofascial Release II™, & Myofascial Rebounding

LOCATIONS AND DATES

ST. PAUL, MN

- ◆ Painful Scars

"The Women's Health Seminar was absolutely awesome. There was a feeling of being part of something incredibly important . . . Like witnessing a piece of history. It felt like John was opening the door for us to be a part of a significant shift in the healthcare field."

QUANTUM LEAP! SEMINAR

This one-of-a-kind seminar is presented every few years and sells out quickly. You will examine 40 years of research on the fascial system. Incredible micro-videography reveals tensegrity, piezoelectricity, mechanotransduction in action, and the fractal nature of the fascial system allowing you to see what you have been feeling in your hands!

Prerequisites: Myofascial Release I™, Myofascial Unwinding, Myofascial Rebounding, Myofascial Release II™

LOCATION AND DATE

SEDONA AREA
(Verde Valley, AZ)
September 22-24, 2025
Cliff Castle Resort
(928) 567-7999

- ◆ Advanced Fascial Cranial Techniques
- ◆ Exaggeration of the Lesion Procedures
- ◆ Compression Unwinding
- ◆ Oscillation & Rebounding Techniques
- ◆ Myofascial & Pandiculation Techniques
- ◆ Myofascial "Crunch" Techniques
- ◆ Multiple Person Unwinding Techniques

MYOFASCIAL REBOUNDING

Neptune symbolizes water, the fluid (ground substance of fascia) of our body which tends to solidify from trauma and the Trident represents the 3 Pronged MFR Approach.

Myofascial Rebounding utilizes the fluid/energy dynamics as a therapeutic force to greatly enhance your Myofascial Release effectiveness in reducing pain, increasing function and awareness. Myofascial Rebounding also "confuses" the neuromotor system to help free the body of its bracing patterns. It's kind of a subtle way in the back door. The mind/body doesn't know what to do, so it just lets go. Myofascial Release and Myofascial Rebounding is an important combination acting as a powerful catalyst enhancing your effectiveness!

- ◆ Reduce Pain
- ◆ Increase Your Awareness
- ◆ Re-Energize Yourself
- ◆ Learn Important New Skills That Will Significantly Enhance Your Effectiveness
- ◆ Receive Extraordinary Treatment

Prerequisite: Myofascial Release I™

MYOFASCIAL RELEASE III—"BEYOND TECHNIQUE"

The contents of this fascinating seminar will include Advanced Myofascial Release, Cranial and Myofascial Unwinding techniques, visualization, guided imagery and subtle energy techniques; emphasizing the development of your proprioceptive senses for whole body evaluation and treatment.

Bond with fellow therapists as you treat one another to help clear yourself mentally, physically, and emotionally so that you can become true healers.

This powerful and enjoyable experience will allow your essence to re-emerge in a healthy, positive, balanced fashion. This will be done in a supportive, loving environment designed to bring out your full potential to become authentic healers.

I look forward to being with you.

Sincerely,

John F. Barnes, P.T.

New Prerequisites for Myofascial Release III

Myofascial Release I, (repeat Myofascial Release I), Fascial Pelvis, Cervical Thoracic, Myofascial Rebounding, Myofascial Unwinding, (repeat Myofascial Unwinding), Myofascial Release II, Advanced Myofascial Unwinding, (and repeat a seminar of your choice), a one week Skill Enhancement Seminar, and a one or two week 'Therapy for the Therapist' treatment program. * Half price tuition for repeating.

DATE: October 21-26, 2025

LOCATION: Sedona Area (Verde Valley, AZ)—Nestled like a diamond in the foothills of towering red cliffs, Sedona is considered to be one of the natural wonders of the world. Its sheer red walls and pinnacles reach heights of 2,500 feet with the waterfalls of Oak Creek cutting their way through majestic pine forests. It is a landscape masterpiece that has taken nature's architect millions of years to sculpt.

HOTEL: Cliff Castle Resort (928) 567-7999—Reserve Early!

PRICE: \$2000 or \$1795 if registered 2 weeks prior to the seminar date.

TO APPLY: Please send your picture, resume and a letter stating what the Myofascial Release Approach has done for you personally and professionally, why you feel you are ready for this seminar and what your goals are for this 6 day retreat.

Mail to: MFR Seminars, 42 Lloyd Avenue, Malvern, PA 19355, along with a \$500 deposit.
Those not accepted will receive a full refund.

Since it is essential to have a compatible group in attitude, openness and skill level, we reserve the right to accept only those whom we feel are functioning at the proper level at this time.

SUBTLE ENERGY SEMINAR

EXPAND YOUR SENSITIVITY & AWARENESS!

You will expand your sensitivity and awareness by exploring new levels of stillness, listening, awareness, focus and intentionality, energetic perception, interconnection and intuitive knowing as they relate to our own healing and thus to the deepening healing of patients.

Highly recommended to be taken in conjunction with Myofascial Release III

ENROLLMENT IS LIMITED!

ONLY 4 THERAPISTS PER WEEK—THEREBY MAXIMIZING & PERSONALIZING YOUR LEARNING EXPERIENCE!

"I am from Central Scotland. The investment I put into this training has been significant financially, especially with travel, accommodations and costs. The results to date however are immeasurable; I am fully booked for the rest of the month. My client base continues to grow and clients travel from an ever-increasingly wide radius to see me."

"THERAPY FOR THE THERAPIST"

FEELING TIRED AND BURNED OUT? ARE YOU ALWAYS THE CARE-TAKER? Do you want to develop skills and confidence to provide consistent results for your patients? "THERAPY FOR THE THERAPIST" is designed specifically for you! This unique and one-of-a kind program meets the needs of the therapists who are experiencing pain, tightness and in desperate need of rejuvenation.

Sessions are multiple times per day for a total of 15 hours per week. Concentrated treatment with our teams of highly skilled Myofascial Release therapists elicits the catalyst in promoting efficient, deep healing. Therapists returning home from the "Therapy for the Therapist" Program experience quantum leaps in health, inner calmness, therapeutic intuition and heightened proprioceptive awareness.

THE BEST GIFT I EVER GAVE MYSELF!

Dear John Barnes and all the staff at the Malvern Myofascial Release "Sanctuary",

I want to thank you all for the deeply transformative therapeutic week I spent participating in your 'Therapy for the Therapist' program. I found it to be an amazing opportunity for professional and personal growth. Three sessions of hands-on therapy a day with some of the most talented physical therapists in the world has regenerated me! I haven't felt this good since . . . well, maybe ever! I have been working in physical therapy for 20 years, but never invested 100% of my time and energy toward healing myself, until this week of 'Therapy for the Therapist'. Thanks to Myofascial Release and John, I now know I am worth it. I deserve it. And I need it . . . every year! Everyone does.

WESTERN MYOFASCIAL RELEASE TREATMENT CENTER

“Therapy on the Rocks”, our Western Myofascial Release Treatment Center, is located in Sedona, Arizona nestled on a cliff along side a fifty foot waterfall cascading into the pristine water of Oak Creek Canyon. “Therapy on the Rocks” offers the perfect setting for healing. Magnificent views of the red rocks of Sedona are seen from the cozy treatment rooms, redwood sunning decks, and our creek side whirlpool.

Western majestic Red Rock Canyons lie nestled between the beauty of the Grand Canyon, just a 2 hour drive north, and the charm of Phoenix, a magnificent two hour drive south. Drive through Oak Creek Canyon (between Sedona and Flagstaff) on scenic Highway 89A, where spring fed Oak Creek cuts its way through a 28 mile long, 3,000 foot deep gorge and where the forces of nature have acted to create a visual masterpiece. Visit the quaint mining town of Jerome, built on the precipice of Mingus Mountain, with unique shopping available and spectacular views of the Sedona Valley.

Sedona, Arizona is truly a unique destination spot where visitors can enjoy a multitude of activities: hiking trails leading into the heart of the Red Rocks, jeep and helicopter tours, horseback riding, train and balloon rides await visitors. Beautiful and varied art galleries, Southwest and eclectic shopping opportunities, ancient Native American ruins, golf on the rocks, Slide Rock State Park and a multitude of high quality restaurants, incredibly beautiful resorts and housing options, even cozy suites are minutes away.

CONTINUING EDUCATION:

Myofascial Release Seminars are approved by many state and national associations. Please visit our website at myofascialrelease.com for a complete listing and to determine the number of hours granted by your association. It is the individuals responsibility to determine from their state board what is within their scope of practice.

DISCOUNTS:

Graduates of the Pediatric Myofascial Release Workshop or the Myofascial Mobilization Workshop are entitled to a \$50 discount off the price of the Myofascial Release I or the Fascial-Pelvis Seminar. Participants who register for any three seminars at one time (excluding Myofascial Healing, Myofascial III and the Skill Enhancement Seminar) are entitled to a \$300 discount. Hospitals or facilities who register five or more persons at the same time are entitled to a \$50 per person discount on any Myofascial Release Seminar. Registrations must be mailed, faxed or phoned in at the same time. Graduates of our seminars may repeat any or all of these seminars for half-price. DISCOUNTS CANNOT BE COMBINED.

REGISTRATION FEE AND CANCELLATION POLICY:

Full payment is required to reserve a space. Enrollment is limited. Fee includes materials, seminar instruction, hands-on workshop training, continental breakfast, afternoon refreshments, and a seminar certificate (excludes Myofascial Healing). Written confirmation will be sent after payment is received in our office. You may cancel your registration up to 14 days before the seminar. Your registration fee will be refunded less a \$50 processing fee. If you need to cancel less than 14 days prior to the seminar you may transfer your registration to another seminar of your choice. We reserve the right to cancel any seminar, in which case the tuition fee will be returned in full. MFR Seminars is not responsible for any guaranteed airline/hotel reservation.

TAX REFORM ACT OF 1986, AS AMENDED BY THE 2017 TAX CUTS & JOBS ACT:

Registration fees, travel and lodging expenses incurred by a business or self-employed taxpayer while attending a convention or seminar that maintains or improves job skills relating to their profession will continue to be fully deductible; meal cost will remain 50% deductible.
